Welcome to Australian Academy

We aim to skill the future workforce through high quality, personalised education and training. We are committed to ensure our students get the highest level of practical training to build the job-ready workforce. We are constantly adapting our courses and facilities to suit local community and international industry needs.

We understand your need

Once you make the decision to study at Australian Academy in beautiful Melbourne, we want you to be able to feel fully at home. We understand how important it is to have a nurturing and non-judgemental setting to be able to really, truly feel educated and empowered to learn. We also understand that life can be stressful, busy and demanding, so always have our resident counsellor available for our students when they want support. There are many social events throughout the year that bring our student community together, so you will feel accepted and part of something special.

Our Values

At Australian Academy we are fully committed to excellence in education. We continually update our standards as a Registered Training Organisation as well as being a CRICOS Provider. We have a strong ambition to imbuing educational values in every single class, and every experience within our campus community for our students.

A place of acceptance, fairness and diversity, we are celebrants of difference and we aim to provide a continuity of support for those who learn with us.

Easy Start Dates

We have new student intakes every few weeks. No need to wait.

Clear Career Pathways

We guide and help students progress on to other universities or training providers.

AUSTRALIAN ACADEMY

OF BUSINESS & TECHNOLOGY, MELBOURNE AUSTRALIA

RTO ID: 45457 | CRICOS: 03734D

Diploma of Information Technology

This qualification reflects the role of individuals in a variety of information and communications technology (ICT) roles who have established specialised skills in a technical ICT function.

Individuals in these roles carry out moderately complex tasks in a specialist field, working independently, as part of a team or leading a deliverable with others. They may apply their skills across a wide range of industries, business functions and departments, or as a business owner (sole trader/contractor).

Academic and age requirements

Prospective Australian Academy international students are required to demonstrate their capacity to complete the course successfully. Students applying for Diploma level will need satisfactory completion of the equivalent of Australian Year 12 or Certificate IV or higher qualification. The minimum age for entry to this program is 18 years above at the date of your enrolment.

Career opportunities

Graduates may work in the following:

- Network Technician
- Network and System Administrator
- Network Security Professional
- Help Desk Professional

Australian Academy does not do any misleading claim or job guarantee or advertise any employment outcome with its courses.

Pathways

After successfully achieving ICT50220 Diploma of IT, candidates may undertake ICT60220 Advanced Diploma of IT. Participants who exit this course at any time prior to completion will receive a Statement of Attainment for the units of competency they have successfully achieved.

Assessment

This program is delivered under competency-based training which means instead of grading or marks, students are required to demonstrate all the criteria for each unit of competency and student a remarked "Competent" or "Not yet competent". Typical assessment methods will include written questions, case studies, role plays and skills demonstration.
